

St Theresa's R.C. Primary School

13 August 2026

Dear Africa's Anchor of Hope,

On behalf of the learners, educators, management, and entire school community of Saint Theresa's Roman Catholic Primary School, we would like to express our sincere gratitude for the generous donation to our school library.

Since its establishment, the library has exceeded our expectations and become a valuable, well-utilised resource within our school. Our learners have embraced the library with great enthusiasm, creating a wonderful space where they can develop a love of reading, broaden their knowledge, and explore new ideas. The library has contributed positively to our learners' reading development, vocabulary, comprehension, research skills, and overall academic growth. Educators have also been able to incorporate the library into classroom activities, giving learners opportunities to engage with books and resources beyond their regular textbooks.

One of the most encouraging outcomes has been seeing learners who previously had limited access to books become excited about reading and choosing books independently. The library has provided a safe, welcoming and inspiring environment where learners can read, learn and develop their imaginations.

We are truly grateful to Africa's Anchor of Hope for investing in our learners and recognising the importance of literacy and education. Your generosity has gone far beyond providing a physical library — you have helped create opportunities, inspire young minds and contribute towards a stronger culture of reading at our school.

We are committed to ensuring that the library remains well-maintained, actively used, and valued by our learners and educators for many years to come.

Thank you for believing in our children and for making such a meaningful contribution to their education.

With sincere appreciation,

Mr E.G. Simpson

Principal
